

## 3<sup>rd</sup> AIEE Energy Symposium

# Current and Future Challenges to Energy Security

the energy transition

**10-12 December 2018 - Milan - Bocconi University**

We are delighted to announce the **third edition** of the AIEE Energy Symposium is back in Milan

**Call for Abstracts starts on May 15 - deadline July 15**

The Conference aims at providing a forum for an analysis of the new developments and a new vision of the future framework for energy security and will try to define the energy priorities for the next years and the action to be taken.

**6 plenary sessions and 30 concurrent sessions**  
to discuss on

Access to energy  
Biogas and biomethane  
Behavioural energy economics  
Climate policy and emission trading  
Europe energy road map to 2050  
Energy supply and security  
Energy efficiency in buildings  
Energy storage – effects on the market  
Energy vulnerability in developed countries  
Extending the scope of European energy regulation  
Industrial energy and material efficiency  
Energy and Industrial Competitiveness  
Market instruments for energy efficiency North-South  
cooperation on renewable energy  
Promoting or imposing energy efficiency?  
Regulation of energy markets

Smart grids  
Smart meters  
Smart cities  
The future energy demand  
The utility of the future  
The Union energy security  
Technology development (grid management)  
The gas market: new perspectives?  
The perspective of LNG  
The impact of oil price fluctuation  
The future of transportation  
Technology development - grid management  
Strategic contribution of energy storage to energy security  
Sectorial approach to energy efficiency in industry  
Reducing industrial energy use and CO2 emissions  
European perspectives of energy security in the global

**we welcome you in Milan!**
